

OTN Systems, located in Olen, Belgium, develops and markets the XTran (Excellence in Transport) telecommunication equipment, dedicated to the operational telecommunication departments of metros, light-rails, oil & gas, mining, ITS (intelligent highways, tunnels & bridges), ports, utility companies, public safety and industrial campuses. With OTN Systems' unique products, it is possible to integrate different existing applications for voice, data, LAN, video, SCADA, etc. into one high-speed network with a fiber optic backbone. More specifically, the OTN Systems products are at their best when it comes to mission critical networking. This is made possible by strong investment in product development and a highly skilled workforce, resulting in a unique product portfolio based on cutting edge technology.

OTN Systems is part of Belden Inc., a global leader in high quality, end-to-end signal transmission solutions. Belden Inc. delivers a comprehensive product portfolio designed to meet the mission-critical network infrastructure needs of industrial, enterprise and broadcast markets.

Project Manager (m/f/d)

Description
